- **DRINKING WATER STORAGE** Rotathene® 11UV tank colours have been tested and certified by the Australian Water Quality Centre to AS/ NZS 4020: 2002 Australian Standard for drinking water.
- **UV PROTECTION** Rotathene® 11UV provides maximum UV protection against harmful UV rays.
- **DURABILITY** Rotathene® 11UV has a proven track record exhibiting excellent impact strength and long term physical properties.
- **ALGAE PREVENTION** Rotathene® tank colours are formulated to exclude sunlight preventing the growth of algae.

For products containing Rotathene® contact our valued customer.

Rotathene® is made from hexene based polyethylene which is internationally recognised as the most appropriate grade for Australia and New Zealand's harsh conditions.

Rotathene® is produced by Vanglobe, a local company with hands on experience in rotational moulding.

Rotathene® comes in a range of colours that have been matched to leading housing materials including the **COLORBOND®** range of colours.
